

### Fertility Treatment Success Rates 1 May 2014 – 30 April 2015

The Poundbury Fertility team is delighted to share our patients' success rates for the first full year of the London clinic's operation.

*"Making accurate comparisons between clinics is always difficult as the success rates of one clinic may vary from another due to a range of factors, most notably the particular medical history of the patients treated. At Poundbury Fertility we do not select our patients but work with them to ensure that their needs are fully met, leaving no stone unturned.*

*"Fertility is not just IVF, every patient presents with unique circumstances and we treat every patient as individuals. I am delighted that patients achieve a pregnancy in 32% of all treatment cycles regardless of treatment type or patient age. Our patients' excellent success rates are a testament to the dedication of our fertility team,"* Mr Michael Dooley, Poundbury Fertility's Director explains.

For more information about success rates visit the HFEA website:  
<http://www.hfea.gov.uk/fertility-clinics-success-rates.html>

#### IVF/ICSI/egg & embryo freezing treatment cycles

|   | <35 years of age | Across all ages |
|---|------------------|-----------------|
| Clinical Pregnancy Rate per embryo transfer<br><small>(excluding egg freezing and 'freeze all' embryo cycles)</small> | 73.7%            | 39.7%           |
| Clinical Pregnancy Rate per egg collection<br><small>(excluding egg freezing and 'freeze all' embryo cycles)</small>  | 73.7%            | 30.2%           |
| Cycles reaching egg collection  | 19               | 76              |
| Egg freezing cycles   | 0                | 10              |
| 'Freeze all' embryos cycles   | 0                | 8               |
| Cycles reaching embryo transfer   | 19               | 58              |
| Pregnancies   | 14               | 23              |

#### Frozen embryo transfer (FET)/Follicle tracking cycles – across all ages

|                         | Follicle tracking cycle | FET cycle |
|-------------------------|-------------------------|-----------|
| Clinical Pregnancy Rate | 27.9%                   | 18.2%     |
| Cycles                  | 68                      | 11        |
| Pregnancies             | 19                      | 2         |

\* Please note, Poundbury Fertility is a satellite clinic of The Lister Fertility Clinic where all HFEA-licensed aspects of treatment take place. Our success rates are therefore included within The Lister Fertility Clinic's success rates available on the HFEA website:
